PROFESSIONAL SUMMARY

UI/UX Designer with 1.5+ years of professional experience creating user-centered web and product experiences for B2B cybersecurity platforms. Skilled in Figma, high-fidelity prototyping, responsive UI patterns, design systems, accessibility, and developer-ready handoff. Experienced in translating complex requirements and stakeholder feedback into clear flows, consistent interfaces, and technically feasible solutions in Agile teams.

PROFESSIONAL EXPERIENCE

Bugv Software Technologies Pvt. Ltd. - Junior UI/UX Designer Mar 2026 - Present

- Design end-to-end workflows for a B2B cybersecurityplatform,including organization dashboards,vulnerability triage, program setup, billing and invoice management, KYC, and super-admin tools.
- Translate business requirements, user needs, and technical constraints into information architecture, user flows, wireframes, high-fidelity interfaces, and interactive Figma prototypes.
- Maintain reusable components, UI patterns, and visual guidelines to improve consistency across organization, researcher, admin, and marketing touchpoints.
- Collaborate with product stakeholders and frontend/backend developers, refine designs from feedback, and communicate states and interaction intent for smoother implementation.
- Apply usability, responsive-design, and accessibility principles while adapting priorities in a fast-moving product environment.

Bugv / Cynical Technology - UI/UX Design Intern Dec 2025 - Mar 2026

- Created user flows,information architecture,wireframes, UI components, and prototypes inFigJamandFigma for direct use by engineering teams.
- Participated in design reviews and revised work from senior-designer and stakeholder feedback while preserving project scope and visual consistency.

Aide Ascent Pvt. Ltd. - UI/UX Designer Intern Nov 2024 - Mar 2025

- Designed wireframes,prototypes, andreusable UI components for internal and client-facingproducts; supported layout refinement, visual consistency, and UX documentation.

DishHome - L1 Technical Support Apr 2025 - Jul 2025

- Resolved customer issuesand explained technical solutions clearly, strengthening practical userempathy, problem diagnosis, and communication skills.

SELECTED PRODUCT WORK

Bugv B2B Website Redesign: Reworked information architecture and responsive page systems for enterprise audiences; delivered high-fidelity prototypes and a scalable visual system.
Bugv KYC Verification: Designed submission, review, rejection, and targeted resubmission states with clear status communication and error recovery.
Bugv Product Work: Selected organization dashboards, billing and payment verification, program creation, integrations, and data-heavy product interfaces.

CORE SKILLS

Design & Prototyping: Figma, FigJam, Adobe XD, Sketch; wireframes, mockups, high-fidelity prototypes, interaction states

UX & Systems: User flows, information architecture, usability analysis, heuristic evaluation, design systems, UI kits, WCAG accessibility

Delivery & Collaboration: Responsive design, design specifications, stakeholder feedback, developer handoff, cross-functional collaboration, Agile workflow

Front-End Awareness: HTML, CSS, Tailwind CSS, JavaScript, React, WordPress

EDUCATION & TRAINING

Bachelor of Computer Applications (BCA) - Tribhuvan University 2023 - Present
Madan Bhandari Memorial College

UI/UX Design Certification - Mindriser 3 months
Design thinking, qualitative research,usabilitytesting,designsystems,interaction design, accessibility,and responsive design-to-code.
